DETAILED ACTION

Specification

1. The abstract of the disclosure is objected to because abstract fails to comply with MPEP § 608.01(b) (c) in such that abstract exceeded more than 150 words. Correction is required.

Election/Restrictions

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 2-19 and 37 drawn to an optical means (plurality of lenses) interposed in viewing path class 345, subclasses 32.
 - II. Claims 20-35 and 38 drawn to liquid crystal display elements (liquid crystal lenses), classified in class 345, subclass 87.

The Inventions are distinct, each from the other because of the following reasons: Groups I, and II are related as subcombinations disclosed as usable together. Groups II does not require the details of group I therefore this groups are distinct. The subcombinations are distinct if they do not overlap in scope and are not obvious variants and if it is shown that at least one subcombination is separately usable. See MPEP § 806.05(d).

3. Because these inventions are independent or distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
